

TS-600

PC-EPOS System

**Quality
build
and
superb
value
at the
point of sale**

TS-600 with wireless option

When used with Geller-Vectron software, the POS Mobile Pro adds wireless point of sale to the TS-600.

GELLER POINT OF SALE SYSTEMS

Innovation through experience

Powerful performance Heavy-duty build Remarkable value

Good looking terminals that mean business

Attractive from every angle, the die-cast aluminium housing has clean minimalist looks that enhance the décor of any environment. Cables are recessed within the base, avoiding unsightly wires on view and accidental cable disconnection.

Small footprint - big value

Occupying less counter space than an A4 sheet of paper, TS-600 comes as standard with

- embedded Windows Xp
- magnetic card swipe for membership and loyalty
- magnetic Dallas server lock and 5 server keys for security

Versatile to meet your business requirements

You can choose -

- **TS-600 in solid-state form with 256 Mb RAM and 512 Mb compact flash memory.**
Ideal with *Geller-Vectron* software for all hospitality and leisure applications. Rugged, water-resistant, no moving parts.
- **TS-600 with 256 Mb RAM and 40 Gb hard drive.**
Ideal with *GellerTouch* software for retailing and hospitality businesses who need to hold customer information and access historical data at the point of sale.
- **TS-600 in compact flash or hard drive form without an operating system.**
Ideal for users who wish to install their own Windows or Linux operating system and use the software of their choice.

Mix and match within the range

If you need a basic screen at one point of sale and, for example, a dual screen with sound card and in-built speakers at another, TS-600 can be mixed in the same system with the higher specification models TS-700 or TS-800.

Built better to serve you longer

TS-600's attractive, all-metal housing and external power supply ensure cool running, longer component life and protection from external electronic 'noise'. TS-600 does not need a cooling fan, so operates silently.

Software to suit your requirements

Choose *GellerTouch* or *Geller-Vectron* software and enjoy on-going, single-source hardware/software support.

Alternatively, you may prefer to use the industry specific software of your choice.

Heavy duty kitchen printer for bars and restaurants

Fast, silent receipt/bill printer

Choice of bar code scanners for retail stores

Pole display can be fitted to the TS-600 or sited remotely

Authorised Sales and Support Dealer
