retail and built
to work in the
toughest environments
TS-800 is a complete and
self-contained EPOS system**

Available with dual processor and screen

GELLER POINT OF SALE SYSTEMS

Changing business for the better since 1957

Geller TS-800 combines stunning good looks with powerful performance, bringing prestige and style to any location.

A sound investment decision

TS-800 provides remarkable value because each unit is a complete self-contained EPOS system. In addition to operating at the point of sale, TS-800 provides full back office functionality and management reporting.

Combining quality with innovation TS-800 offers the utmost in features, performance and reliability for virtually any hospitality and retailing establishment.

Geller TS-800 will serve your business long and well.

Versatile to meet the needs of your business

TS-800 comes complete with *GellerTouch* Software, customisable to meet the needs of all hospitality and retailing requirements. Up to 24 screen layouts are available, individually tailored to suit all locations.

Option of Dual Processor with Dual Screen

Video clips with sound can be displayed on the customer facing screen. Alternatively, the rear screen can also be a touch screen for staff access from both sides. Where applicable, the rear screen can be used interactively by customers to make selections.

So easy to use at the point of sale

Although sophisticated, *GellerTouch* Software is flexible, fast and easy to use. Even part-time servers can operate the system with just a few minutes training.

Durable by design

Solidly built to exacting standards, TS-800's injected cast aluminium housing is built to withstand the harshest environment. Successfully operating in many countries around the world, TS-800 provides an ideal solution for the most demanding hospitality and retailing locations.

Elegant and Ergonomic

Attractive from every angle, with no unsightly wires on view, the TS-800 is available in silver or black to complement any décor. For ease of use, TS-800's compact all-in-one design and 90 degree tilting displays adapt to whoever uses it and wherever it is placed.

Authorised Sales and Support Dealer
